

CLOUD EXPERIMENTS

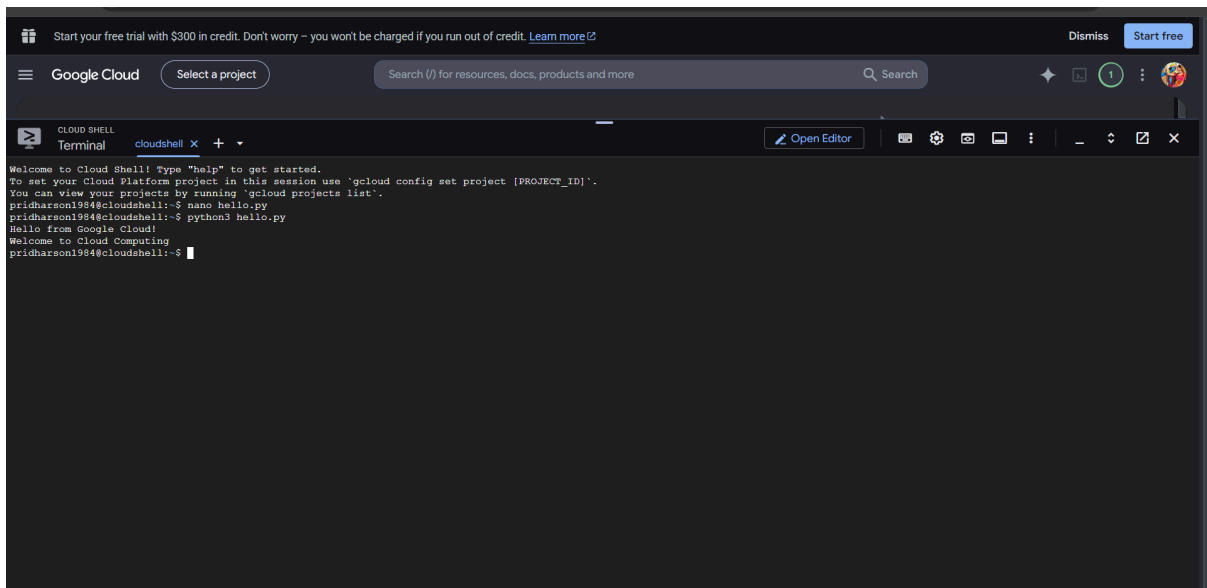

EXPERIMENT 01

The screenshot shows the Google Cloud Shell interface. At the top, there's a banner for a free trial with \$300 in credit. Below that is the Google Cloud header with a search bar. The main area is a terminal window titled 'cloudshell' with a tab 'Terminal'. The terminal output shows the following commands and their results:

```
Welcome to Cloud Shell! Type "help" to get started.
To set your Cloud Platform project in this session use 'gcloud config set project [PROJECT_ID]'.
You can view your projects by running 'gcloud projects list'.
pridharson1984@cloudshell:~$ nano hello.py
pridharson1984@cloudshell:~$ python3 hello.py
Hello from Google Cloud!
Welcome to Cloud Computing
pridharson1984@cloudshell:~$ mkdir cloudlab
pridharson1984@cloudshell:~$ cd cloudlab
pridharson1984@cloudshell:~/cloudlab$ echo "Welcome to Google Cloud" > sample.txt
pridharson1984@cloudshell:~/cloudlab$ cat sample.txt
Welcome to Google Cloud
pridharson1984@cloudshell:~/cloudlab$
```

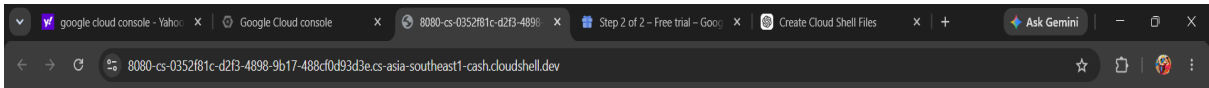

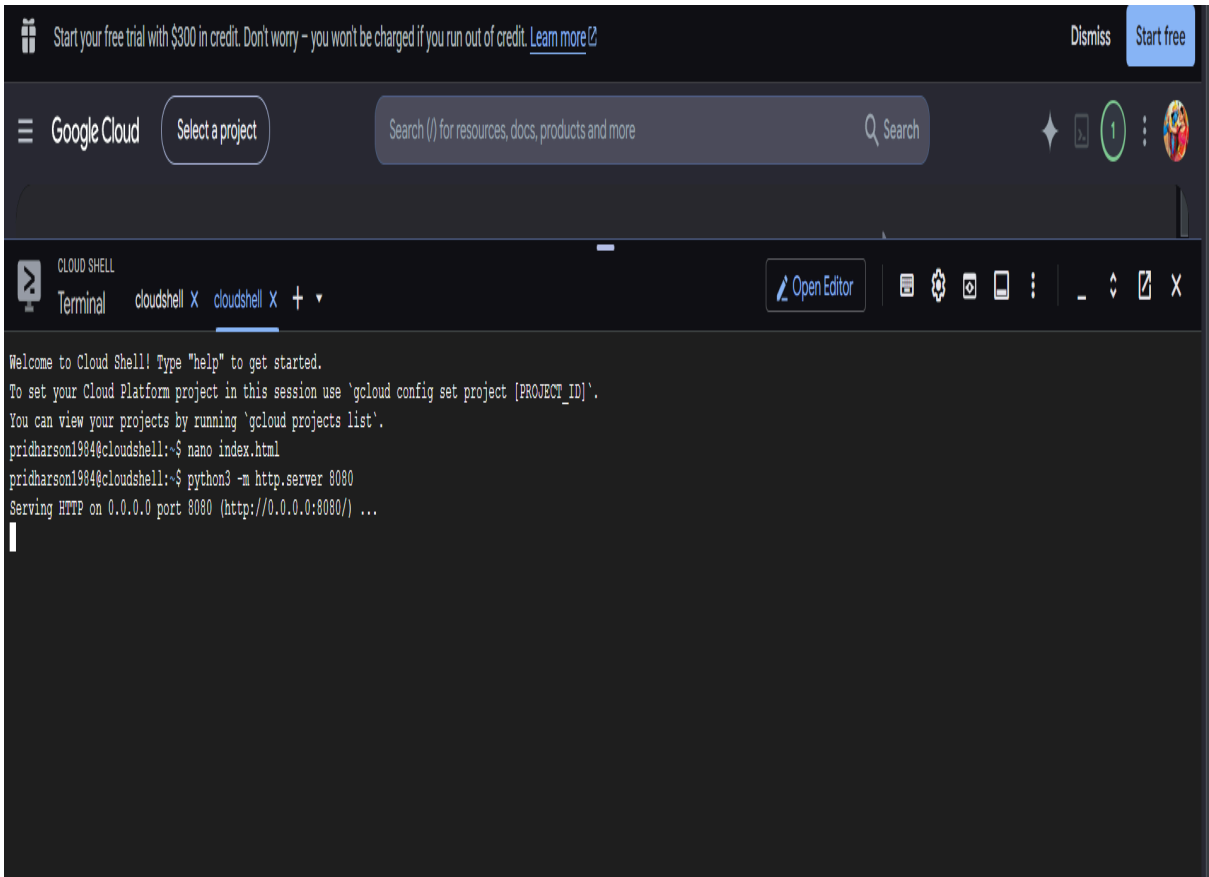

EXPERIMENT 02

The screenshot shows the Google Cloud Shell interface, similar to the one above. The terminal output shows the following commands and their results:

```
Welcome to Cloud Shell! Type "help" to get started.
To set your Cloud Platform project in this session use 'gcloud config set project [PROJECT_ID]'.
You can view your projects by running 'gcloud projects list'.
pridharson1984@cloudshell:~$ nano hello.py
pridharson1984@cloudshell:~$ python3 hello.py
Hello from Google Cloud!
Welcome to Cloud Computing
pridharson1984@cloudshell:~$
```

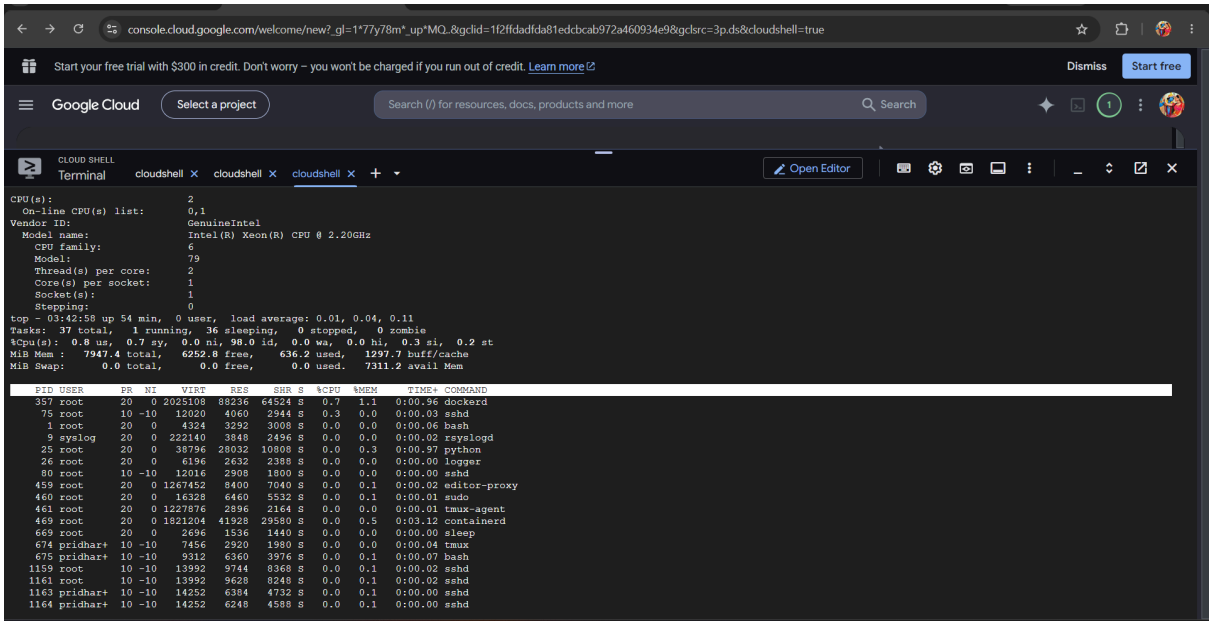

EXPERIMENT 03

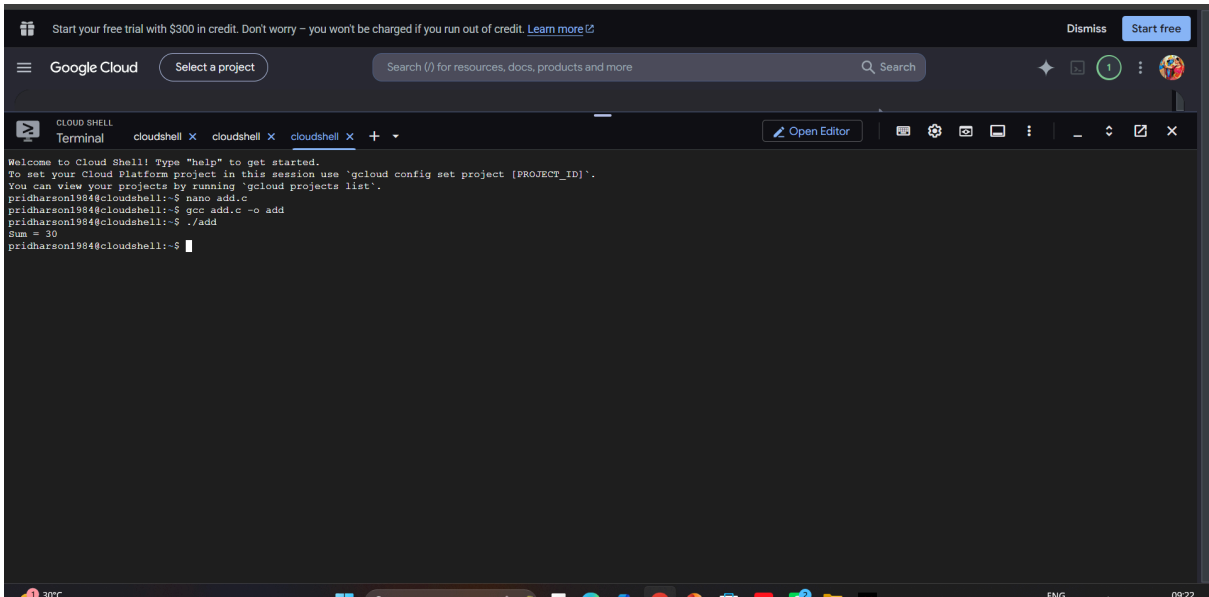

Google Cloud Practical

My first cloud web application

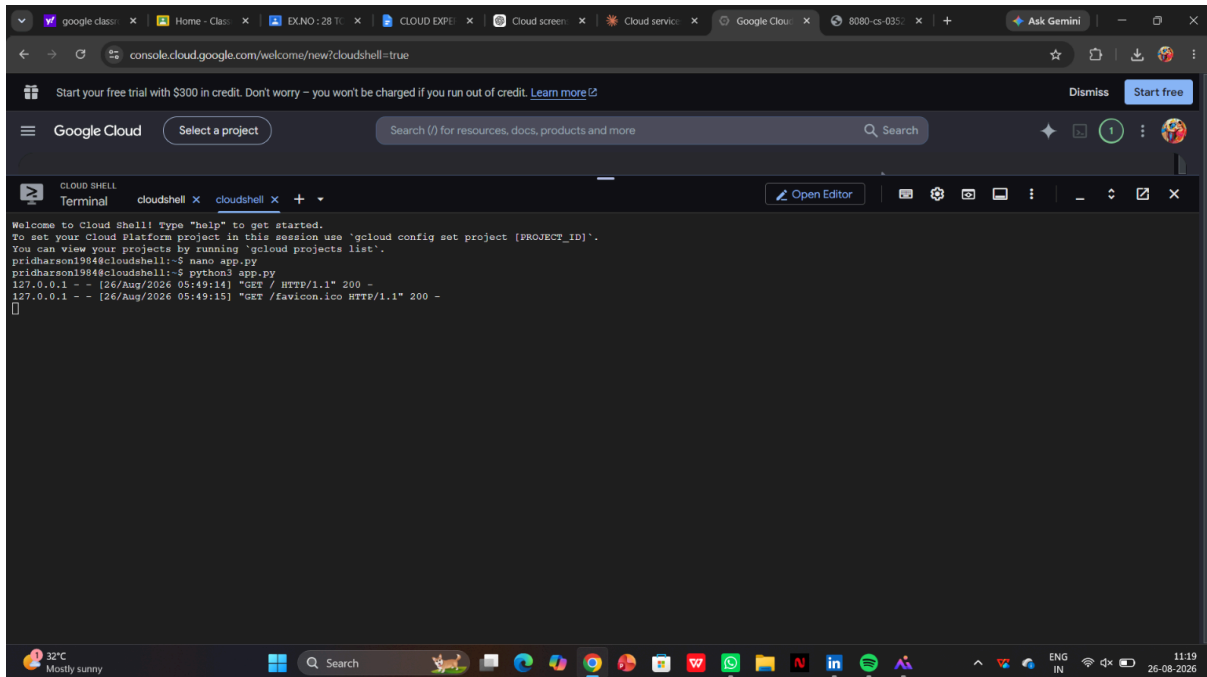

EXPERIMENT 04

EXPERIMENT 05

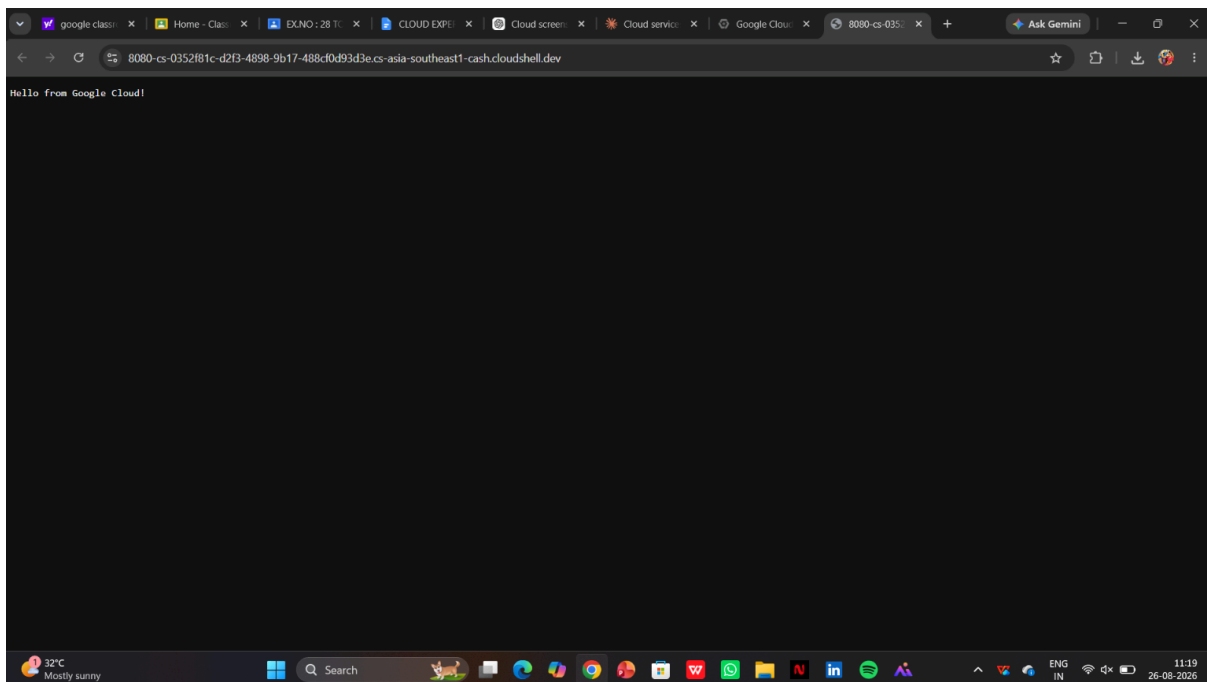

EXPERIMENT 06

The screenshot shows a web browser window with the Google Cloud Shell console. The address bar displays `console.cloud.google.com/welcome/new?cloudshell=true`. The page header includes a Google Cloud logo, a search bar, and a "Start free" button. The terminal window is open, showing the following text:

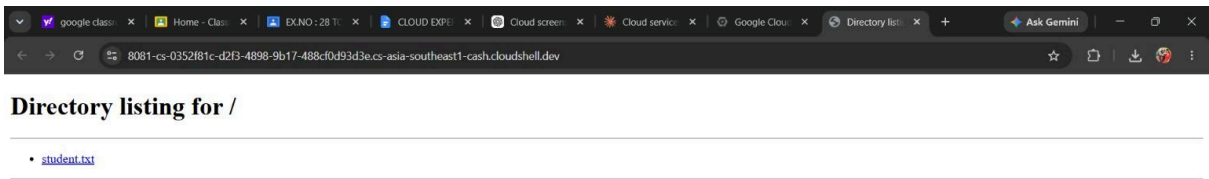

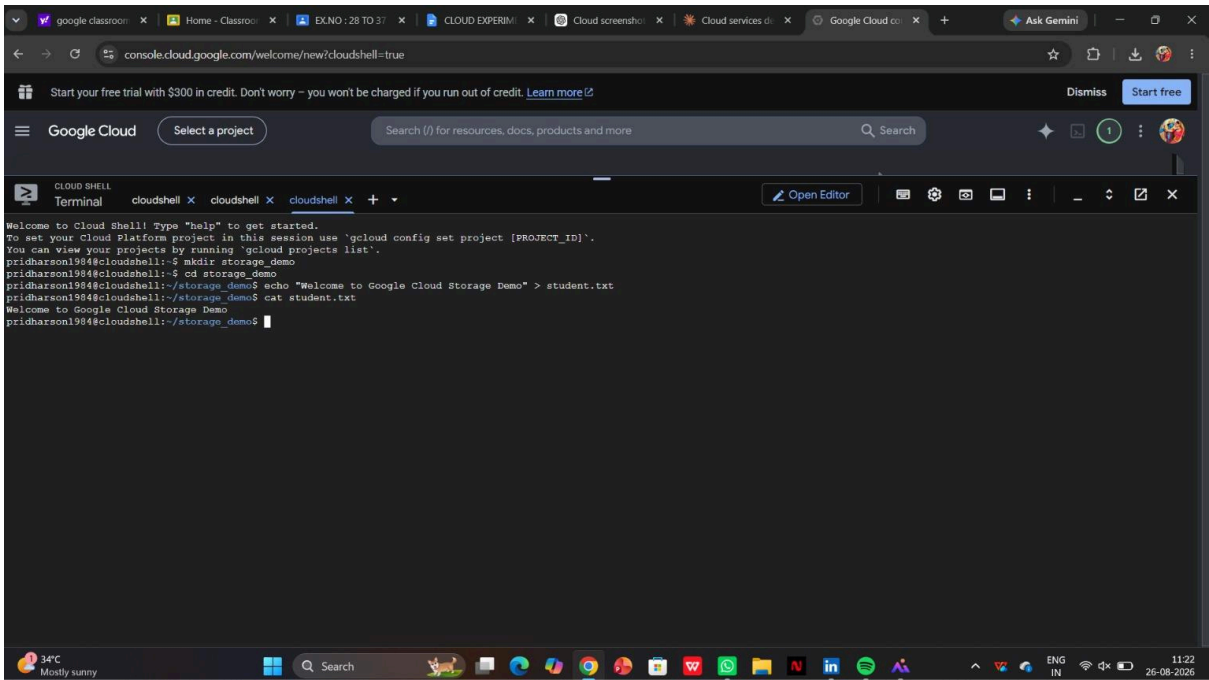

```
Welcome to Cloud Shell! Type "help" to get started.
To set your Cloud Platform project in this session use 'gcloud config set project [PROJECT_ID]'.
You can view your projects by running 'gcloud projects list'.
pridharson1984@cloudshell:~$ nano app.py
pridharson1984@cloudshell:~$ python3 app.py
127.0.0.1 - - [26/Aug/2026 05:49:14] "GET / HTTP/1.1" 200 -
127.0.0.1 - - [26/Aug/2026 05:49:15] "GET /favicon.ico HTTP/1.1" 200 -
```

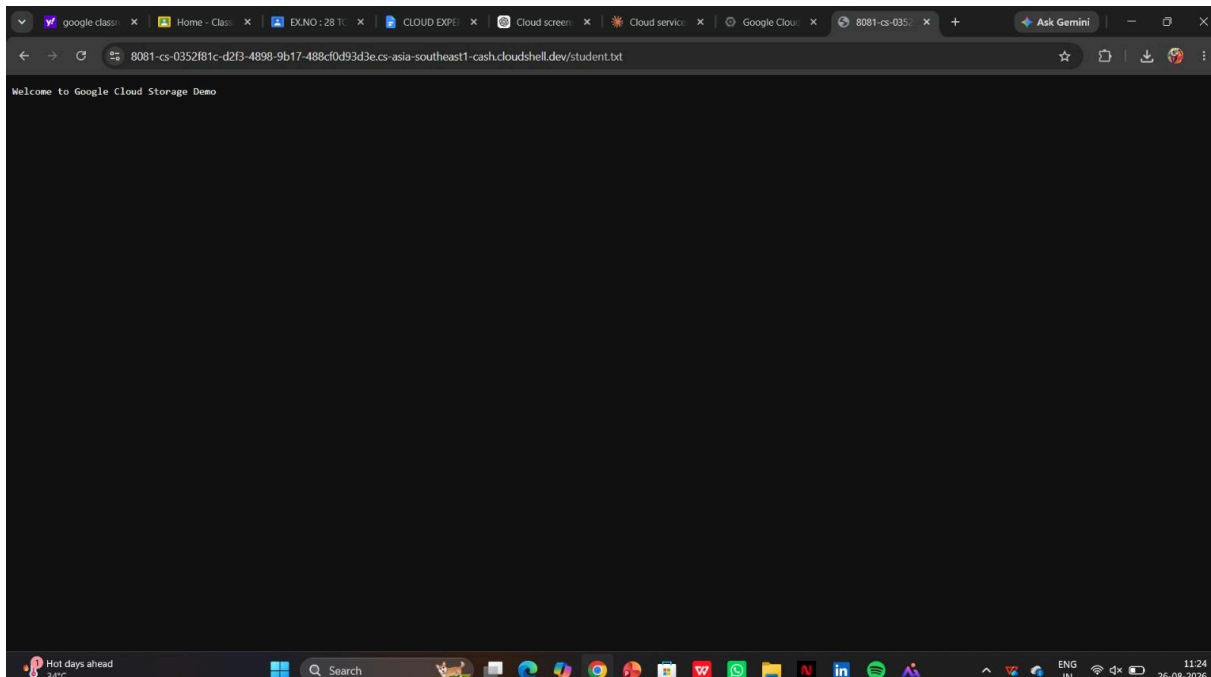

The browser's taskbar at the bottom shows the system clock as 11:19 on 26-08-2026, with a weather widget indicating 32°C and "Mostly sunny".

The screenshot shows a web browser window with the Google Cloud Shell console. The address bar displays `8080-cs-0352f81c-d2f3-4898-9b17-488cd0d93d3e.cs-asia-southeast1-cash.cloudshell.dev`. The terminal window is open and shows the text "Hello from Google Cloud!". The browser's taskbar at the bottom shows the system clock as 11:19 on 26-08-2026, with a weather widget indicating 32°C and "Mostly sunny".
